

“The Nursing Process : A Core Aspect for Enhanced Patient Care”

Date-14th May, 2022

OJASWINI
NURSING COLLEGE

University Road, Pathariya Jat, Sagar, M.P.

THE THEME

The process of Nursing is an essential tool for applying the knowledge of nursing into practice, in a way which enhances the quality and effectiveness of care. The nursing process is a dynamic method, which consists of five inter-related stages - assessment, diagnosis, planning, implementation, and evaluation.

High quality nursing care is based on systematic scientific methods and sound theoretical knowledge. The nursing process is an essential tool used to determine the health care needs of an individual. It enables nursing professionals to plan and provide timely and patient specific care.

In addition, it promotes critical thinking, creativity, problem solving, and decision-making skills in clinical practice. Nursing care provided via the use of nursing process increases the quality of care and in turn, increases the level of satisfaction among patients and care givers.

The conference is designed to educate and improve the existing knowledge and proficiency of the nursing process among educators and students and provide an opportunity to share ideas and best practices.

This conference promises to be a memorable learning and networking opportunity for both faculty and students.
